Men's

How to get the right fit

First, don't measure your feet in the morning; feet often swell during the day due to heat and activity. For the best fit, measure your feet at the end of the day.

To measure your shoe size follow these instructions:

1. HEEL-TOE LENGTH

Place a piece of paper on the floor with one end against a wall. Stand on the piece of paper with your heel against the wall. Mark the piece of paper where your toes end with a pencil.

Measure from the end of the piece of paper to the mark you created with your pencil and compare the measurement to our sizing chart.

How to get the right fit

To measure your clothing size follow these instructions:

1. CHEST

Keeping the tape measure parallel to the floor, measure around the fullest area of your chest.

2. WAIST

Keeping the tape measure parallel to the floor, measure around the narrowest part of your waist.

3. HIP

Keeping the tape measure parallel to the floor, measure around the fullest part of your hip.

How to get the right fit

To measure your clothing size follow these instructions:

1. WAIST

Keeping the tape measure parallel to the floor, measure around the narrowest part of your waist.

2. HIP

Stand with feet together and measure around the fullest point of the hip, keeping the tape parallel to the floor.

3. INSIDE LEG LENGTH

Measure from your crotch to the bottom of your leg. Be aware that the inseam measurements are based on a regular inseam.

Choose the right size

That's easier said than done. Because, what do you do if you are in between two sizes?

TOPS: If your measurements for the chest and waist match with two different sizes, order the size that matches your chest measurement.

BOTTOMS: If your measurements for the waist and hip match with two different sizes, order the size that matches your hip measurement.

Grade School

How to get the right fit

First, don't measure your feet in the morning; feet often swell during the day due to heat and activity. For the best fit, measure your feet at the end of the day.

To measure your shoe size follow these instructions:

1. HEEL-TOE LENGTH

Place a piece of paper on the floor with one end against a wall. Stand on the piece of paper with your heel against the wall. Mark the piece of paper where your toes end with a pencil.

Measure from the end of the piece of paper to the mark you created with your pencil and compare the measurement to our sizing chart.
